UCSD Profiles is managed by UC San Diego Altman Clinical and Translational Research Institute (ACTRI).

UC San Diego Altman Clinical and Translational Research Institute (ACTRI) is part of a national Clinical and Translational Science Award consortium, led by the National Institutes of Health National Center for Advancing Translational Science. Established in 2010, ACTRI provides infrastructure and support for basic, translational and clinical research throughout the San Diego region to bring discoveries from the laboratory to the bedside, and facilitates training and education of the next generation of researchers. ACTRI carries out its activities in collaboration with institutional and corporate partners and currently has more than 1,300 members.

Acknowledgements

UCSD Profiles is UC San Diego’s version of the ground-breaking, open source “Profiles Research Networking Software” that was developed under the supervision of Griffin M. Weber, MD, PhD, with support from Grant Number 1 UL1 RR025758-01 to Harvard Catalyst: The Harvard Clinical and Translational Science Center from the National Center for Research Resources and support from Harvard University and its affiliated academic healthcare centers.

UCSD Profiles is hosted by the UCSF Clinical and Translational Science Institute (CTSI), part of the Clinical and Translational Science Award program funded by the National Center for Advancing Translational Sciences (grant number UL1 TR000004) at the National Institutes of Health (NIH).

Profiles Research Networking Software is available as an open source platform for institutions seeking a web-based means of facilitating collaboration among their academic researchers.

UCSD Profiles is a Research Networking and Expertise Mining Tool

Experts, Collaborators, Mentors
- 100,000+ publications
- 1200+ UCSD faculty
- 30 biomedical institutions nationwide

Discover Networks
Peoples’ Research Connections
- Who co-authored together
- Who worked on similar research topics

Search

FAQs

Who is listed in UCSD Profiles?
- All faculty in Health Sciences, Engineering, SIO, Biological Sciences, Physical Sciences, and most faculty in other UCSD departments.
- Research Scientists and Project Scientists
- Postdocs

Who can view UCSD Profiles?
- UCSD Profiles is searchable on the web and can be viewed by the general public as well as the UC San Diego community.

Where does the information in UCSD Profiles originate?
- All information automatically added to your profile page is currently available on other public websites, specifically the UCSD Directory, Blink, PubMed, and NIH RePORTER. Overview and other personalized information are entered by the profile owner or a designated proxy.

How frequently are the data in UCSD Profiles updated?
- Changes made to your primary campus information via your HR representative, such as names, degrees, and contact information, are automatically updated once a week.
- Publications are added from PubMed weekly. MeSH terms and other publication data are updated monthly.
- Changes made to a profile manually will be reflected immediately.

How do I login to UCSD Profiles, and edit and enhance my Profiles page?
- Click the “Sign in” link on any UCSD Profiles page. Then enter your SSO username and password.

Can I add/edit research, career and academic interests?
- Yes! You can enter interests when you are editing your profile.

Can I edit my co-authors or related authors network lists?
- These networks are automatically derived from publications and their MeSH terms. Keeping your publications accurate and up to date will improve these networks. However, these lists can’t be edited directly.
